What we offer

OneVision® offers complete solutions to help your company achieve growth, reduce costs and increase production reliability:

- ✓ **Strategic support and consulting**
- ✓ **Intelligent, comprehensive solutions**
- ✓ **Multi-tier support**
- ✓ **Training – Onsite, on the phone and online**
- ✓ **Faster, more efficient workflows**
- ✓ **High level of automation in your production**
- ✓ **And much more....**

100%

What we offer

- ✓ **We support our customers in achieving their goals by developing solution focused software**
- ✓ **We contribute significantly to our customers' profitability and simultaneously increase their data quality**

Optimisation of production processes focusing on:

Cost savings:

Saving of material, energy and resources

Speed:

Workflow automation and reduction of production time

Quality:

Reduction of customer complaints and reprints
Increased customer satisfaction

Our customers...

...and what they say about us

FINANCIAL
TIMES

Financial Times, UK:

"Financial Times has been working with OneVision for many years and I have always been impressed with the robust performance of their products."

Gazeta

Gazeta de Vitoria, Brazil:

"It's incredible how OneVision software solutions have improved our workflow over the last ten years. Today, our entire workflow, be it advertisements, images or whole pages, relies on OneVision products. Whenever I have a problem or a new requirement, OneVision always has a solution."

Dar al-Hayat group, Lebanon:

"I must acknowledge that OneVision has a brilliant development team which never ceased to deliver to our requirements so promptly."

Malayala Manorama Company Ltd, India:

"Asura and Solvero enhanced our confidence in the prepress workflow. We are happy with its color management system, its processing speed and perfection in output."

Overview of pre-media solutions

Asura – Comprehensive and modular

Asura® offers you fully automated quality control for print files at the pre-press stage with subsequent optimisation of the PDF files.

- ✓ **Automatic error identification and error correction –**
Check of all input files for errors
- ✓ **Solution to all overprinting and transparency issues**
- ✓ **Converts customer files to production files**
- ✓ **All automated in your workflow**
- ✓ **Secure and reliable printing**

TIME SAVING

MODULAR

QUALITY ENHANCEMENT

Solvero – Last minute corrections to print documents

With the file editor Solvero® you can completely edit your PDF files at any time.
This allows you to save time while offering more service to your customers!

- ✓ **Live editing of text, graphics and images**
- ✓ **Importing PDF, Postscript, EPS and different image formats**
- ✓ **„All-in-One“ editor repairs the most common production issues – E.g. missing fonts, wrong colour spaces, or low resolutions**
- ✓ **Saving time – Manual intervention at the last second: Comprehensive tool palette for quick correction of production data**
- ✓ **Consistently high output quality – Directly working in PDF eliminates conversion loss caused by different file formats**

QUALITY

USER-FRIENDLY

raSTER hd^{plugin}

– Photo-quality prints

PlugRASTER-HDin gives you much more colour stability with perfectly homogeneous fills, and the smoothest of blends with brilliant shades of colour. Screened images achieve photo appearance.

- ✓ **With Homogeneous HD Technology the combination of the best of AM and FM finally succeeded**
- ✓ **Perfectly depicts the finest details** – No rosettes: e. g. with hair, fur, vegetation and even with tricky mid-tones (such as skin tones)
- ✓ **New sources of revenue** – More advertisements through enhanced image quality
- ✓ **Fully integrated into Asura[®] workflows**
- ✓ **One stop shop** – Reliability with OneVision[®] technology

REPUTATION

inksave^{pro} – Save ink without sacrificing quality

Less is more: With InkSave Pro you save ink while increasing quality and productivity.

- ✓ **Cost savings by ink saving** – Black replaces expensive CMY colours
- ✓ **Increased productivity** with lower ink volume:
 - Shorter drying time
 - Lower risk of colour bleeding
 - Faster processing
- ✓ **Consistent quality** – Uniform colour rendering and no visual deviations
- ✓ **Environmentally friendly** – Less chemicals
- ✓ **All-in-one system** – No additional hardware needed
- ✓ **Compatibility** with any printer and any printing press

USER-FRIENDLY

amendo – Fully automated image enhancement

Amendo® automatically optimises your images around the clock and increases your throughput:
23 steps done automatically in 4 seconds!

- ✓ **Intelligent image optimisation – in 4 seconds**
 - Import images
 - Automatically identify image quality
 - Automatically enhance each image individually
 - Export images
- ✓ **Instantly identify and enhance skin tones, sky tones and vegetation tones**
- ✓ **Automatically optimise skin tones** – Harmonise different skin tones while preserving individual elements. As a result, you establish well balanced skin tones for multiple images.
- ✓ **Photoshop® and Indesign® extensions** – For flexible post-processing

USER-FRIENDLY

workspace – Intelligent and dynamic workflows

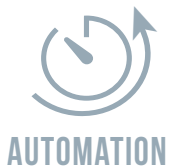

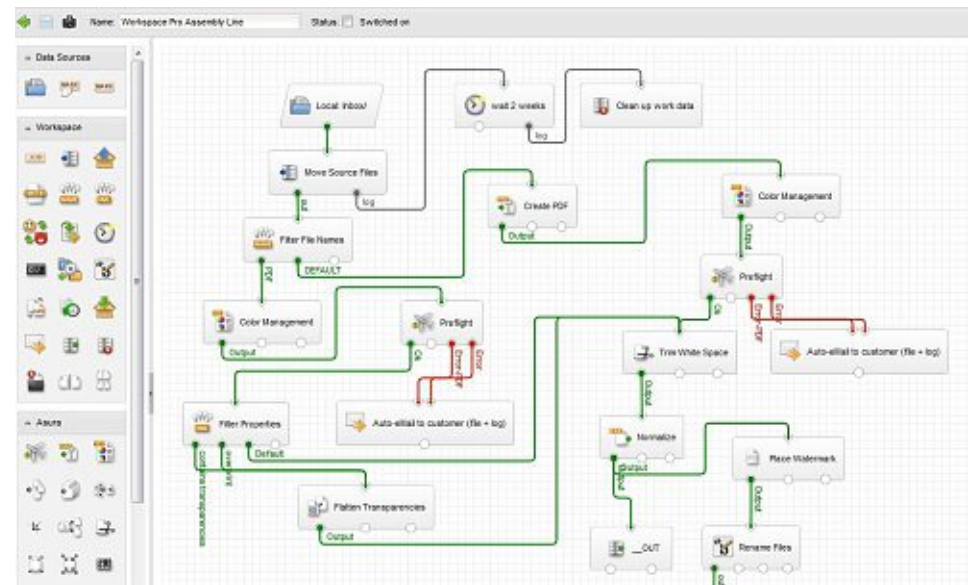

Individual workflow automation at its best – with Workspace.
Standardise, automate and envision your processes!

✓ **Workspace Pro – Increase your workflow flexibility**

- Very easy integration of external systems
- Intelligent file management and routing system using file name and properties
- MIS connection via web services and job tickets

✓ **Workspace Balance – Optimise your throughput**

- Run multiple Asura®/Amendo® on one server
- Increase work capacity by load balancing with your desired number of client machines

cloud – Optimum network

Minimum effort and maximum control in the Cloud: With the high-capacity connection to the Cloud, you will profit from the optimum performance for your production and always be on the cutting edge of technology!

- ✓ **Maximum planning security – Maximum cost transparency**
- ✓ **Lower investments with Cloud concept –**
Controlling products centrally via the Cloud
- ✓ **Automated updates – Always the latest IT standard**
- ✓ **No data centres needed**
- ✓ **Creating synergies – One Cloud for many corporate locations**
- ✓ **Time savings with high performance connection**

Workspace Modules

Workspace

	Filter File Name	Mode that can distribute files according to file format
	Script	Enables Workspace to integrate scripts into an assembly line
	Job Scheduler	Schedules the execution of modules in assembly lines by setting waiting times
	Compress/ decompress files	Supports import from archive formats, e.g zip,tar, gzip, jar and export as zip
	Send E-Mails	Sends e-mails to one ore more recipients. Job files may be attached
	Virtual Printer	Allows transfer of native files into Workspace assembly lines by printing

Workspace Pro

	Job Ticket	Enables Workspace to use job tickets
	Filter by Attributes	Files can be processed differently based on your metadata (properties)
	Hotfolder	Integration of foreign hotfolder applications (overcomes missing interfaces)
	Collect	Collecting files within the parameters of a job
	Page Pairing	Flexible Page Pairing based on Asura® technology -> Equalization of RIP and exposure times
	Rename files	Rename job files according to pre-defined rules

Workspace Balance	Distributes incoming jobs across registered and licensed client machines. Allows load balancing, allows parallel execution of modules with more than one license.	
--------------------------	--	--

Asura[®] Access Modules

Asura[®] Access

	Flatten Transparencies	Removes transparency from a PDF-file
	Normalize	Allows to adjust the files to your production environment
	Preflight	Performs detailed checks on file quality
	Color Management	Defines input colour calibration and overprint settings
	Create PDF	Converts all supported formats into PDF, performs some basic optimizations
	Split Multi-page Documents	Splits a multi-page document into multiple documents
	Cut Spreads	Cuts spreads horizontally or vertically
	Modify Page Format	Allows various modifications of page size
	Prepare Sheet	Defines sheet properties such as paper size and output orientation, and the print marks to be added
	Solvero Approval	Allows to hand over files that meet definable criteria to Solvero [®] for manual inspection/repair/approval (only available for customers using Solvero [®])
	Detect URLs	Parses all text of input files for strings that may constitute URLs and inserts corresponding link annotations

Asura[®] Modules

Asura[®]

	Trim White Space	Trims pages depending on page content
	Convert to Image and EPS	Convert documents to image files and EPS files
	Merge Documents	Merges multiple documents into one document
	Place Watermark	Places a watermark on the job files
	Print Documents	Prints to any installed Postscript printer
	Compare Documents	Creates a diff image of two versions of a document to identify deviations, or calculates the amount of ink saved after having applied InkSave
	Prompt PDF	Creates PDF files optimized for fast screen rendering
	Overlay Pages	Overlays the pages of two documents
	Create Preview Images	Creates a preview image in PNG format for each document page

Asura[®] Pro

	Jobticket	Enables Workspace to use job tickets
	PlugRECOMPOSEin	Recomposes the plate pages of separated documents to composite pages
	PlugCROPin	Automatically detects crop marks and accordingly trims document pages
	PlugSPOTin	Generate new pages for colours matching specified colour rules
	PlugFITin	Checks ad sizes according to predefined parameters and adjusts them automatically
	Filter Text	Filters documents depending on the occurrences of specified strings in the text
	Convert to Text	Converts documents to text files

Add-ons

	PlugINKSAVEin	Reduces the amount of ink used for printing documents
	PlugRASTER-HDin	Outputs documents as TIFFG4 files

Overview of crossmedia solutions

nirado – The comprehensive digital publishing solution

Mirado® publishes your print publications on all digital devices – quickly and easily.

- ✓ **Acquire new readers and increase revenue**
- ✓ **Easy to use: Prepare, enhance, publish**
- ✓ **Multi channel distribution: Create one set of digital files for all devices – iOS, Android, Amazon and Desktop**

amazon kindle fire

Google play

- ✓ **Comprehensive analytics – Measure readership by edition and understand reading habits**
