The universal editor for your files:
Always the ideal solution!

Solvero

Solvero

Last minute corrections of your production files

Solution

- Complete editing of PDF files
- Saving time
- More flexibility
- Consistently high output quality

With the file editor Solvero® you can completely edit your PDF files at any time. This allows you to save time while offering more service to your customers!

✓ Last minute corrections
✓ Automatic error identification

✓ Significant time savings
✓ Easy to use

COST SAVING   FLEXIBLE   QUALITY   USER-FRIENDLY

✔ **„All-in-One" editor repairs the most common production issues –** E.g. missing fonts, wrong colour spaces, or low resolutions

✔ **Consistently high output quality –** Directly working in PDF eliminates conversion loss caused by different file formats

✔ **Saving time – Manual intervention at the last second:** Comprehensive tool palette for quick correction of production data

✔ **PDF export according to your individual requirements** for additional editing

✔ **Controlling the workflow –** Able to integrate into any Asura® workflow

✔ **Security and flexibility for your production –** Deadlines can be met more easily

✔ **OneVision® Support*:** Competent, quick problem-solving – Extensive availability – Individual contacts

*When a service agreement is purchased

RETURN ON INVESTMENT

✓ **Adhering to deadlines:** With the comprehensive functionality of Solvero®, you can enter corrections yourself – which saves time and increases your service performance for your customers

✓ Increased customer loyalty by **improving the quality of print data**

✓ **Reducing complaints and reprinting costs**

✓ **Using existing resources:** No special IT-knowledge needed for use

100%

R O I

" We can't imagine operating without the software anymore. "

ouest france

" With Solvero, we save 20 to 30 ads per week, which could otherwise not be printed. "

Fairfax Media
